

FACTORY TRAINING

Vehicle manufacturers are faced with trying to meet ever increasing fuel economy standards. One of the technologies the manufacturers have embraced is removing the always-turning power steering pump from the engine and is using electrical power to create the power steering assist.

Topic: Ford Electric Power Assisted Steering

When: Nov 17, 2021 07:00 PM Central Time (US and Canada)

Register in advance for this webinar:

https://bbbind.zoom.us/webinar/register/WN_G7b3EWbKSuyHyVckq6f42A

After registering, you will receive a confirmation email containing information about joining the webinar.

This course will focus on the Ford EPAS Systems

Module software update requirements

System Operation

Component functions

Components

Diagnostics

Common issues
