Factory Training in Longmont, Colorado

Basic Hands On Instructor Led Alignment Training

This 3-day Basic Alignment course is designed for entry level technicians that are new to vehicle alignment concepts and procedures. The course consists of presentations and demonstrations along with extensive hands-on training.

Advanced Hands On Instructor Led Alignment Training

This 2-day Advanced Alignment course is designed for the technician that has been working with vehicle alignments for at least a year. 60% classroom and 40% hands-on instruction. Completion of Basic Training course is recommended.

SAVE - COMBINE BOTH TRAINING OPTIONS IN ONE WEEK

Pricing for SPC's Factory Training is \$275 each for the Basic and Advanced course. Stay for the entire week and combine our Basic and Advanced Training for only \$500 - save 10%!

For the current factory training schedule or to sign up online go to www.specprod.com/training or call 800-525-6505

Field Training

SPC's training can come to you. Our fast-paced 4-hour training events are held around the country with professional trainers who provide specific alignment and suspension information on many alignment subjects. Topics include; adjustment methods, problems associated with suspension and alignment, technical service bulletins, and service procedures. Call your local distributor or parts warehouse to find out when they can schedule SPC's field training in your area or call 800-525-6505 for SPC's field training schedule.

Online Training

Using our online learning program, alignment techs and shop owners can further their knowledge of alignment theory and get the tools to put that knowledge into practical application.
