PREMIUM ROTORS FOR PREMIUM BRAKE PADS

Premium Wagner® Brake rotors are engineered for maximum performance with an E-Shield® protective electro-coating applied to all non-braking surfaces. This black-colored coating prevents corrosion, makes removal for service fast and simple, and is visually attractive for open spoke wheels. A turned, smooth surface finish aids in the proper seating of the friction and requires less time for rotor "break-in".

DORMAN DRIVE SHAFTS

100% New Components

Dorman's entire line of drive shafts are made from 100% new parts, from the shafts to the yokes to the universal joints. This not only ensures optimum quality, but also means there is never a need to send back a bulky, broken old drive shaft for credit.
