## Accessory Drive Belt Kit

### YOUR REWARD CARD

#### REBATE

**\$5.00 EACH KIT**

- This ContiTech OE Quality Accessory Drive Kit includes a serpentine belt (Contitech), tensioner (Litens) and idler (Schaeffler). Everything needed to perform a proper serpentine belt change for the applications covered by this kit. Serpentine Belts are used for driving accessory components that are mounted on the engine. These include the alternator, the cooling water pump, the air conditioning compressor and the power steering pump. A lower profile design provides less noise and cooler running. And with service life intervals equal to or greater than the parts they are designed to replace, ContiTech serpentine belts are truly worry-free.
